

July 6, 1929.

Mr. Wallace R. Wayman,  
Price, Utah.

Dear Sir:

RE: SPRING CANYON DIST.

I have your letter of July 6 with reference to the Spring Canyon trouble and also in receipt of a letter from Mr. Ruggeri of July 6, copy of which is enclosed.

It seems to me that installing of measuring devices is going to increase the chance of argument and friction also to have a deputy who sits on the job every day. I am enclosing copy of letter I am writing to Mr. Ruggeri and suggest that you and he consult together and see why this solution will not work.

The problem which you say has arisen owing to changed conditions in Spring Canyon Wash is another strong reason for keeping the two supplies distinct and separate if possible during the six days in the week on which the Elegantes are entitled to all of Crystal Spring.

Yours very truly,

State Engineer.
